

Aisha Rahimi

Cloud Administrator | IT Support Analyst

aisha.rahimi@email.example • (403) 555-0119

PROFESSIONAL SUMMARY

Junior cloud engineer coming from two years of desktop and server support, now administering Azure subscriptions for a regional engineering firm. Handles Entra ID, virtual networks, VM backups and cost alerts, and writes PowerShell and Bicep to stop doing the same clicks twice. Holds AZ-104 and is preparing for the AWS Solutions Architect Associate.

EXPERIENCE & PROJECTS

Foothills Geotechnical Partners · Calgary, AB

Sep 2024 — Present

Cloud Administrator

- Administer three Azure subscriptions and 70 virtual machines for a 220-person engineering firm, handling access requests, patch schedules and backup restores.
- Rebuilt Entra ID role assignments around groups instead of individual users, removing standing owner rights from fourteen accounts after a quarterly access review.
- Wrote Bicep templates for the standard project VM and its network rules, so new project environments go out in an hour instead of a full day.
- Set budget alerts and a nightly shutdown schedule on test machines, trimming roughly \$2,300 from the monthly Azure invoice without touching production.

Prairie Gate School Division · Airdrie, AB

Jul 2022 — Aug 2024

IT Support Analyst

- Supported 1,800 staff devices across nine schools, resolving hardware, account and network tickets and escalating server faults to the infrastructure team.
- Scripted bulk account creation and licence assignment in PowerShell for the start of each school year, replacing a week of manual data entry.

Hybrid lab network (public GitHub repository)

- Connected a home Proxmox server to an Azure virtual network through a site-to-site VPN, with Bicep definitions, private DNS zones and documented failover tests.

EDUCATION

Diploma, Information Technology Systems

2022

Chinook Polytechnic

SKILLS

Technical: Microsoft Azure, Entra ID, Azure Virtual Network, Bicep, PowerShell, Windows Server, Linux basics, Azure Backup, Azure Monitor, Intune, Git, DNS, DHCP and VPN

Certifications: Microsoft Certified: Azure Administrator Associate (AZ-104) · Microsoft Certified: Azure Fundamentals (AZ-900)
