Priya Raghunathan

QA Analyst Co-op | Software Tester Co-op

priya.raghunathan@email.example • (613) 555-0119

PROFESSIONAL SUMMARY

Software testing graduate with a QA co-op term on a web banking team and a second on a mobile app team. Writes clear test cases, logs reproducible defects and has built small Playwright and Postman suites that run in CI. Looking for a junior QA analyst role on a product team that pairs testers with developers.

EXPERIENCE & PROJECTS

Rideau Ledger Software · Ottawa, ON **Jan 2026 — Apr 2026**

QA Analyst Co-op

- Wrote and executed 140 test cases in TestRail for a bill-payment redesign, covering edge cases around holidays, cut-off times and duplicate submissions.
- Logged 38 defects in Jira with steps, screenshots and network traces; developers closed most of them without needing a follow-up question.
- Automated 22 smoke tests in Playwright and TypeScript that ran on every pull request through GitHub Actions in under eight minutes.

Lakeview Mobile Studio · Gatineau, QC **May 2025 — Aug 2025**

Software Tester Co-op

- Tested a bilingual Android and iOS booking app on twelve physical devices, catching French-language layout breaks before two scheduled store releases.
- Built a Postman collection of 45 API checks with environment variables, which the backend team adopted for their own pre-release verification.

Open-source contribution: test fixes for a form-validation library

- Reproduced and fixed three flaky unit tests, then added regression tests for date-field edge cases; both pull requests were merged by maintainers.

EDUCATION

Advanced Diploma, Computer Programming and Analysis (Co-op) **2026**

Bytown Polytechnic College

SKILLS

Technical: Manual and exploratory testing, Test case design, Playwright, TypeScript, Postman, SQL, Jira, TestRail, GitHub Actions, Chrome DevTools, Accessibility checks (WCAG), Agile

Certifications: ISTQB Certified Tester Foundation Level (CTFL)
